PARTH BHOGAYATA

Full Stack Developer | React.js, Node.js, Express.js, PostgreSQL

Ahmedabad, Gujarat, India | +91 8849748452 | bhogayataparth@gmail.com | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Full Stack Developer with nearly 2 years of experience building production web applications with React.js, Node.js, Express.js, PostgreSQL and Sequelize ORM. Currently developing a CRM platform (Smackdab) and a secure AWS support ticketing platform (Cloud Journey) at eSparkBiz Technologies, covering authentication, REST APIs, database design and responsive front ends.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Java, HTML5, CSS3

Frontend: React.js, Tailwind CSS, Responsive Design, Reusable Component Architecture

Backend: Node.js, NestJS, Express.js, RESTful API Development, Authentication and Authorization

Databases: PostgreSQL, MySQL, Database Schema Design, Query Optimization

Tools: Sequelize ORM, Git, GitHub, VS Code, API Integration, AI-Assisted Development (OpenAI Codex, Claude Code, Qodo), AI Agents and Multi-Agent Workflows, Agent Skills

Methodologies: Agile, Code Reviews, Version Control Workflows

PROFESSIONAL EXPERIENCE

Software Developer | eSparkBiz Technologies | Ahmedabad, Gujarat | Jan 2025 - Present

Cloud Journey: Internal DevOps Help Desk and Ticketing Platform (React.js, NestJS, PostgreSQL, Sequelize ORM, AWS IAM)

- Built the authentication module for a help desk platform that connects AWS clients with DevOps engineers, securing user login and access to ticket data.
- Developed a temporary AWS account access feature that allows DevOps engineers to troubleshoot a client's AWS environment for a limited time without being given the client's credentials.
- Designed PostgreSQL schemas with Sequelize ORM to store users, tickets and access sessions.
- Developed React.js interfaces and NestJS REST APIs supporting the ticket lifecycle from raise and assignment to resolution and closure.

Smackdab: CRM Web Application (React.js, Node.js, Express.js, PostgreSQL, Sequelize ORM)

- Built reusable React.js components and front-end features for customer data management and workflow modules.
- Designed and implemented Node.js and Express.js REST APIs powering core CRM workflows.
- Modeled relational data in PostgreSQL with Sequelize ORM, including schema design and query optimization.
- Integrated third-party and internal APIs to streamline data flow between CRM modules.
- Participated in sprint planning, code reviews and iterative feature delivery with a cross-functional team.

Python Intern | Heliconia Solution Pvt. Ltd. | Apr 2023 - Jul 2023

- Worked with Odoo ERP (Python-based), learning its architecture, how its modules are structured and how business workflows run across them.
- Developed Python-based internal tooling tasks under senior developer guidance while following Git version control and team development workflows.

EDUCATION

Master of Computer Application (MCA) | Marwadi University | 2023 - 2025 | CGPA: 8.67

Bachelor of Computer Application (BCA) | Atmiya University | 2020 - 2023 | CGPA: 9.18

CERTIFICATIONS

- Node.js Certification, Infosys Springboard
- Express.js Essential Training, Infosys Springboard
- Amazon Web Services (AWS) Certified, Infosys Springboard, 2022

LANGUAGES

English, Hindi, Gujarati
